

Muscatine Orchestra Boosters Sponsorship Form

Our music students represent some of the finest students in our school, and we are always looking for possibilities to encourage, challenge, and reward these students. They deserve the best, and with your help we can offer them exciting opportunities to enhance their academic and musical training. It is our hope that this booster organization along with a partnership of businesses, individuals, and the Muscatine Community School District will make available the necessary funds for this program to be successful. The addition of this strings orchestra program in our school district enhances the fine arts program available to our community's children and is a benefit to the whole community. The support of this program is one more thing our community can do for itself to enhance its quality of life.

Please help this program continue to grow with your show of support.

Name(s) _____

Address _____
